

FROM HIDE AND SPROUT

The Great Sprout Hunt

A treasure hunt for the whole family · any number of players · ages 3+

You'll need: **this kit** · **scissors** (for the grown-up) · **crayons**

1

Pick a Hider

Usually a grown-up — or a big kid. The Hider cuts out the sprouts on page 2.

2

Everyone counts to ten

All the seekers cover their eyes — just like Ellie. No peeking!

3

The Hider hides the sprouts

Behind a cushion, under a chair, next to a plant... all around the house.

4

“Ready or not!”

Everyone hunts at once. Found a sprout? Color it in on your Hunt Card.

The one rule for the Hider: a little bit of every sprout must peek out. A sprout always gives you away!

Three ways to play

Little seekers One room, sprouts at eye level, with big tips peeking out. Perfect for ages 3–4.

Hide & Sprout The tricky one: hide each sprout next to something the same color — pink by pink, purple by purple. (Just like the Mimplings in the episode!)

Team hunt Everyone shares one Hunt Card — can you fill it together? Then whoever found the last sprout becomes the next Hider.

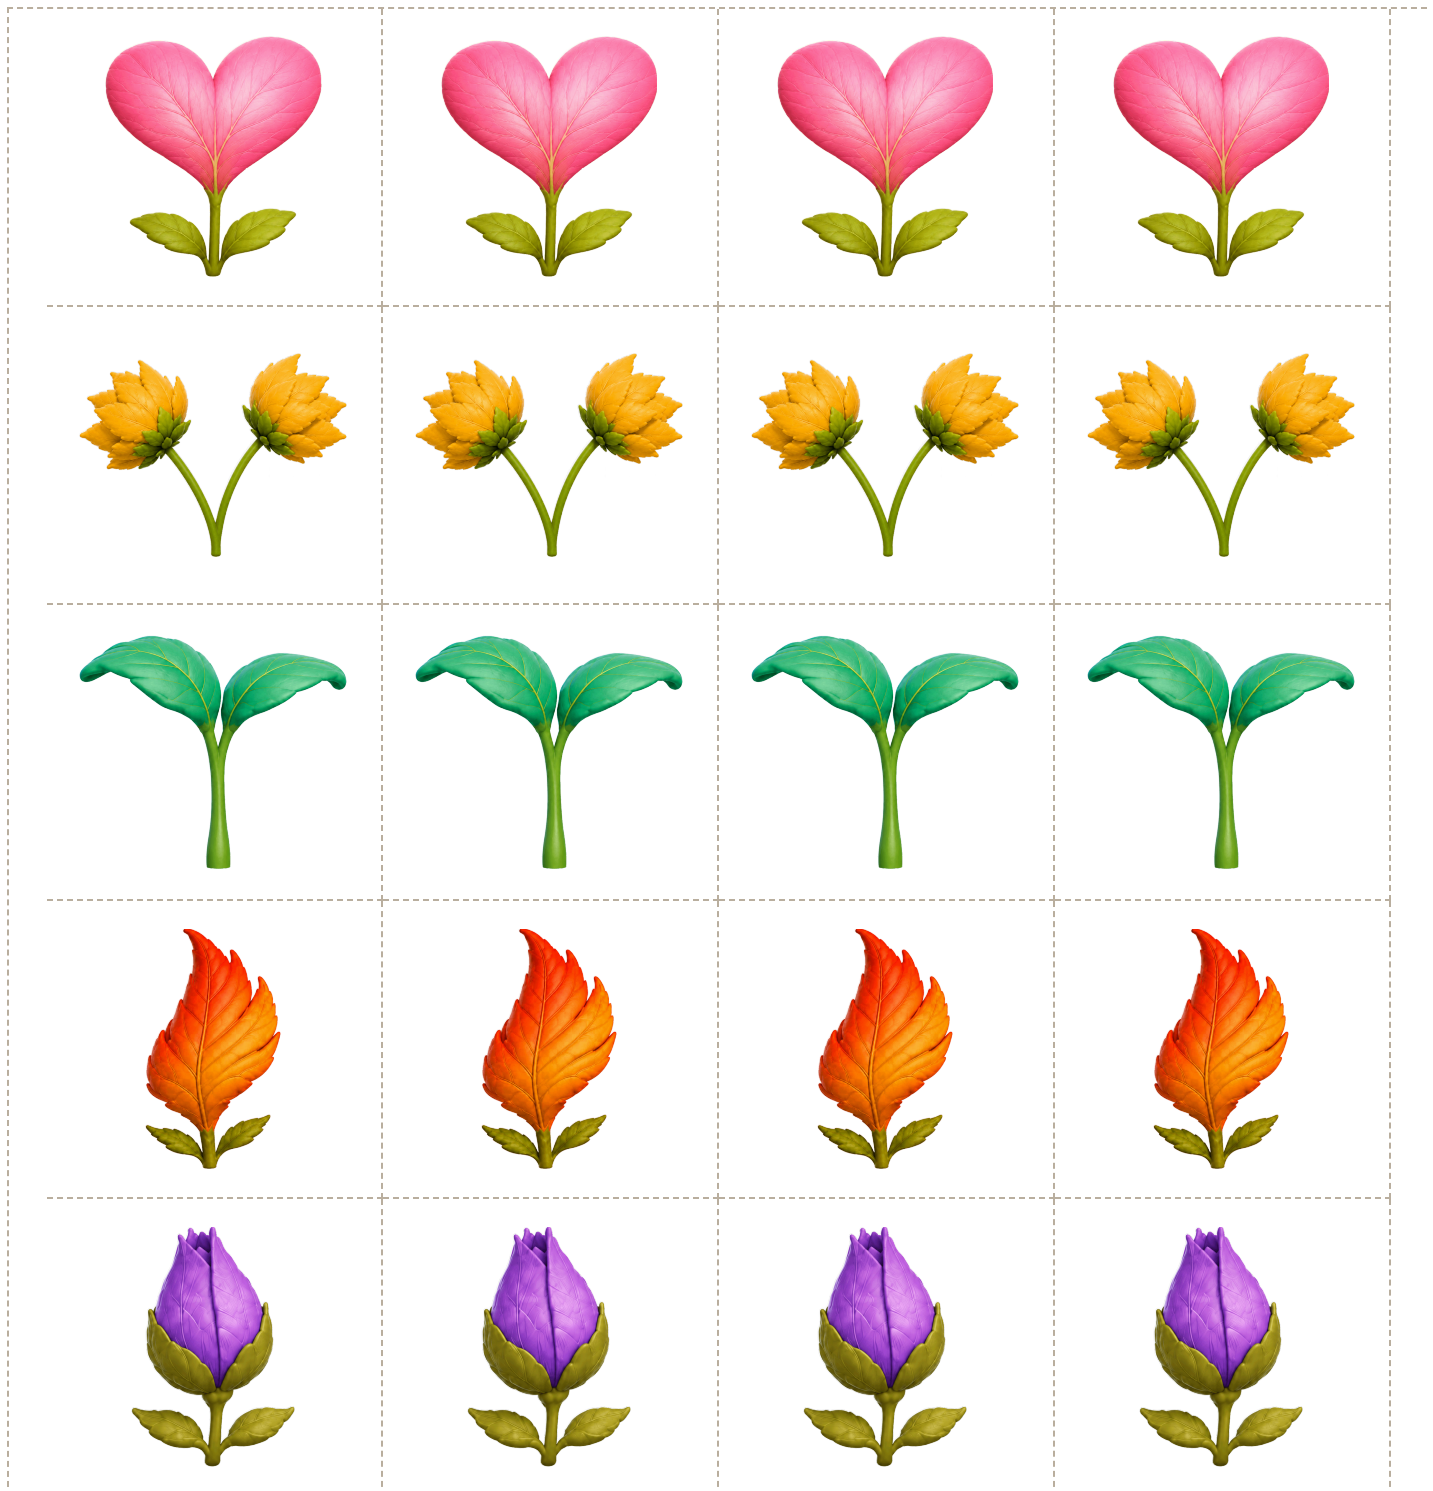

Print the sprouts page as many times as you like — the more sprouts, the bigger the hunt. Print one Hunt Card for every player.

Cut out the sprouts

Four of each friend · cut along the dotted lines · print this page again for more!

Tip: card stock or thick paper makes sprouts easier to hide and find.
